Job Title: Generalist Artist
Job Description:

Under the umbrella of Other Ocean Group, Sculpin's new development division is looking for a talented and driven individual to take on the role of Generalist 2D/3D Artist. Our team is a small and tight-knit collective whose members are valued and expected to participate in helping bring out the fun in games. The ideal candidate should have experience in varied areas of game development and be able and willing to work in any area related to game asset creation as needed. Experience in mentoring and training artists is preferred.

Qualifications

- 2+ years experience creating 2D and 3D game assets
- Amazing game-focused art portfolio of 3D and 2D work
- Experience with modeling in 3ds Studio Max, Maya or equivalent
- Experience with low-poly and high-poly modeling and texturing
- Understanding of 3D art techniques and practices including UV mapping, texturing, rigging, and animation
- Experience with 2D animation and sprite sheet workflow
- Experience using photoshop for concepts/illustrations
- Excellent communication, time-management and organization skills. Ability to work in a team environment, both providing and receiving feedback and critique

Assets:

- Basic experience in creating particle effects and in-game effects
- Understanding of technical limitations and making adjustments in asset optimizations
- Familiarity with shader development and lighting techniques
- Strong knowledge of anatomy and understanding of how animation affects geometry
- Shipped titles demonstrating experience building game assets
- Familiarity and minor technical prowess with game engines such as Unity3d
- Experience with version control systems such as Git, Perforce and SVN
- Experience in asset creation for consoles such as Xbox One and PS4
- Experience with Virtual or Augmented Reality
- Familiarity in agile project management methodologies and tracking tools
